Reference: Mike Beine, Jonathan Beine and John Sheilds

We recently used your company to line a portion of our Condo's sewer drains. As often happens in these situations it was discovered that we had sewer drain issues we were unaware of and that could not have been detected until the technicians looked into the entire system. Mike detailed the issues with us and then moved forward to correct the problems. Mike made the statement that he would make sure that the entire section of drains were open and flowing freely before they left the site.

We were pleased with the knowledge and the positive and professional attitudes exhibited by the employees listed above. Under Mike Beine's direction they worked well together and they all seemed to be knowledgeable about their job. They displayed the necessary skills to perform the tasks they were challenged with.

We would like to take this opportunity to commend Mike, Jonathan, and John for a job well done.

John Gunter, President
Crescent Manor Condominium Association
